

Sit Pacific Basin Growth

DESCRIPTION

- We seek growth opportunities with the objective of delivering superior long-term absolute and real returns.
- We seek to deliver above-average returns with lower risk and better downside capture than the representative market index.
- We invest in high-quality growth companies that have the potential to increase earnings at a faster rate than the representative economy and market index purchased at reasonable valuation levels.

Performance figures for the latest period are preliminary and subject to change. Past performance is not indicative of future results. Returns are calculated on a time-weighted total return basis, include the reinvestment of all income, and returns for periods greater than one year are annualized. The information above is supplemental to and complements the attached composite presentation. The account information set forth above is for the representative portfolio and is provided for illustrative purposes only.

N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

the MSCI AC Asia Pacific (net div. reinv.) Index. On reports prior to 2019, the benchmark reported was the MSCI AC Asia Pacific Growth (net div. reinv.) Index. The benchmark was retroactively changed to the MSCI AC Asia Pacific (net div. reinv.) Index due to licensing issues and to conform the composite benchmark to the underlying account's benchmark. The composite contains portfolios generally emphasizing the common stock of companies domiciled in Pacific Basin countries. The portfolios in the composite do not use leverage and generally hold between 80 to 100 foreign equity securities. The MSCI AC (All Country) Pacific Index is a index that is designed to measure the growth equity market performance of the developed and emerging markets in the Pacific region. The MSCI AC Asia Pacific Index consists of the following 13 developed and emerging market countries: Australia, China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, New Zealand, Philippines, Singapore, Taiwan, and Thailand.

Sit Investment Associates, Inc. is an independent registered investment adviser which includes the following subsidiaries: Sit Investment Fixed Income Advisors, Inc.; and Sit Investment Fixed Income Advisors II, Inc. On December 31, 2007, Sit/Kim International Investment Associates, Inc. and Sit/Kim International Investment Associates II, LLC were liquidated into Sit Investment Associates, Inc. Prior to 2000, Sit Investment Associates, Inc. and Sit/Kim International Investment Associates, Inc. issued separate GIPS reports, including disclosure of each entity's assets under management. Beginning in 2000 the two entities issued a combined GIPS report to reflect the entities' current operational and management affiliation. Total assets for all years presented in the table above reflect the combined total assets of all subsidiaries. The firm maintains a complete list and description of composites, which is available upon request.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using the highest fee applicable annual management fee of 0.90% applied quarterly. The annual composite dispersion presented is an equal-weighted standard deviation calculated for the accounts in the composite the entire year. Beginning April 1, 2006, SIA calculates a true Time Weighted Return (TWR) for each portfolio within the composite and asset weights their returns to come up with a composite return. Periods are geometrically linked together. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The composite returns are net of any applicable withholdings taxes on dividends, interest and capital gains. For the composite taxpayers are primarily domiciled in the United States. For the benchmark returns, the dividend is reinvested after the deduction of withholding tax, applying the rate to non-resident individuals who do not benefit from double taxation treaties.

The investment management fee schedule for the composite is 0.90% on the first \$10 million, 0.85% on the next \$20 million, 0.75% on the next \$20 million, and 0.60% on the amounts over \$50 million. Actual investment advisory fees incurred by clients may vary.

The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period.

Past performance is not indicative of future results.

Sit Investment Associates, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sit Investment Associates, Inc. has been independently verified for the period January 1, 2017 to December 31, 2019 by ACA Performance Services, LLC, for the period January 1, 2007 to December 31, 2016 by Ashland Partners & Company LLP and for the period January 1, 1997 through December 31, 2006 by KPMG LLP.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

The Pacific Basin Growth Composite was created June 30, 2003. Pacific Basin Growth Composite contains fully discretionary accounts and for comparison purposes is measured against

Investing involves risk; principal loss is possible. There is no guarantee the Composite's investment objectives will be achieved, and the market value of securities held by the Composite may fall or fail to rise.

Weighted Average Market Cap is the average market capitalization of companies held by the Fund, weighted in proportion to their percentage of the Fund's net assets. **Beta** is a measure of a fund's sensitivity to market movements. The beta of the market is 1.00 by definition. A beta above 1 is more volatile than the overall market, while a beta below 1 is less volatile.
